Queen Contest Open

Two girls have entered the queen contest that will feature the annual Fourth of July Festival sponsored by

the Mokena Lions.

Gayle Bernard, 17, of 179th & Wolf Rd., and Marilyn Yunker, 16, of 11139 Revere Rd., are the first to enter the queen contest, according to Louis Rauch, chairman of the committee in charge of this phase of the festival.

Many more contestants are needed, Rauch said, and any girls interested are urged to get in touch with him. He can be reached at the Mokena Oil Co., 479-2133, or at his home, 479-5010.

The queen is selected by vote. Each queen is supplied with tickets and each ticket counts as a vote. The tickets are \$1.

There will be prizes for the winners that will be announced later.

The Fourth Festival will be held July 3, 4, 5 and 6. The queen will be crowned on Sunday night, July 6.

Community Park will be the scene of the festival and various organizations are now arranging to have booths there.

Storm Sewer "No" Vote Grows

Several weeks ago the Mokena village board sent approximately 450 letters to property owners asking their opinion of a proposed storm

sewer and street paving program which would cost approximately \$1,200,000 and be paid for thru special assessment bonds.

Village Clerk Alvin Sorensen had received 204 replies.

Of this number 189 were opposed to the plan and 15 were for it.

WHAT'S ROUND, decorated, crowned with candles, and has Happy Birthday spelled out in icing? A cake? Usually you would win with that answer but not with this one. Hoagy — Peter Hogeveen that is — who operates a tavern on U.S. 30 at 80th Ave., doesn't like cake but he goes for cheese in a big way. So when he celebrated his 60th birthday last week his birthday cake — under all the tinsel, candles and such, was a wheel of Herkimer County cheese, almost 40 pounds of it, that his wife and daughter had smuggled into the house. The young friends helping Hoagy blow out the candles, beginning at the left, are Linda Harms, Don Carstens Jr. and on the other side of Hoagy, a grandson, Paul Hogeveen and a grandniece, Susie Wegrzyn. New Administration At Mokena Outlines Plans

The Village of Mokena is now operating under a new administration.

There is a new mayor, Will Tuttle, and three new trustees, Lyman Teague, Chester Ebert and Kenneth Warning. The village clerk is the veteran Alvin Sorensen who was re-elected April 15, and the other three trustees, Edward Haislet, Anthony Dina and Henry Clark, are incumbents whose terms have another two years to run.

The new board took over on Wednesday night of last week.

In announcing his committee appointments for the board, Mayor Tuttle also outlined his views and intentions in a brief statement.

"It is my recommendation to establish the deputy village clerk's office on a full time basis, beginning the next fiscal year," the mayor said. "All calls, complaints and normal business will be handled thru this office and the mayor and board of trustees will be expected to accept only emergency calls and situations."

Village Clerk Sorensen will have the naming of his deputy and it is expected that he will appoint Mrs. Sorensen. This would be logical, the mayor said, since Mrs. Sorensen has been serving as deputy village clerk for many years, but on a parttime basis. She is thoroughly familiar with the workings and demands of the office and would be a most excellent choice, it was pointed out.

Mokena's fiscal year is different than that of most villages. The fiscal year for most villages begins May 1 but at Mokena it is July 1.

The mayor said that he hopes that the new clerk's office set-up can be started June 1. It is expected that all the legalities pertaining to use of the former Lutheran Church will be disposed of shortly so the village can proceed with plans to transform the first floor into a village hall with offices as well as a council chamber. The clerk's office would be located there and operated on a regular schedule, which Sorensen will map out. The library will continue to occupy the ground or basement level.

An inquiry will be conducted to determine if the new universal emergency telephone number, 911, the mayor said, and if found desirable it will be adopted. "A storm and emergency warning system will be initiated to coincide with adoption of the new emergency number," the mayor added, "and with the cooperation of the new civil defense director, fire and police departments, we will have the finest system available to protect the public from misfortune."

"As promised, I am establishing a Citizens Action Committee, to consider all suggestions and constructive criticism offered by concerned groups or individuals. Action will be taken on all worthy projects, in the order of their importance and desirability."

"There will also be appointed, as suggested, a youth committee, to consider and act on problems and projects that effect our community's young people."

"I would like to recommend the study and investigation of the possibility of re-enacting a curfew ordinance . . . not for the purpose of harassing our young people who have legitimate reasons to be on the street after hours, but rather it would be ready for use if needed or desirable."

"In reference to industry there is a need to establish a definite policy pertaining to what we can do, in any way, to aid in ensuring location of plants in Mokena."

"All future annexation prospects should be examined individually for their respective merits, and flexible standards should be initiated for the final decision."

"A procedure regarding building permits, driveway permits, sewer and water tap- ons, excavating and back-filling requirements and the respective inspection necessary, must be drawn up and printed in pamphlet form, in a proper order, so there may be no question as to what is required and when the necessary steps must be taken."

"Problems and projects for individual committee consideration will be submitted to the chairmen for their respective committee action. Final disposition may then be made with the complete board."

The committees named by the mayor to transact village business are made up of the following with the first named as chairman:

Finance, claims, public property and personnel, Lyman Teague, Kenneth Warning and Anthony Dina; water and sewer, Chester Ebert, Teague, Edward Haislet; streets and alleys, Kenneth Warning, Dina, Henry Clark; police, Clark, Ebert, Warning; building, Dina, Haislet and Ebert; licenses and ordinances, Haislet, Clark, Teague.

On recommendation of George Barber, of Mulford Engineering, village engineers for Mokena, bid on communitator for the treatment plant (a device for reducing solids) were rejected as too high. The lowest bid was \$4,475. Barber said the device itself could be purchased for approximately \$1,900, and it could be installed with village labor.

Mokena Poppy Day May 20

Annual observance of Poppy Day at Mokena will be held on May 20 this year—which is next Tuesday.

Members of the Woman's Auxiliary of William Martin Post No. 725, Veterans of Foreign Wars, will sell the poppies. They will be at various locations in the community and will also call at the various places of business.

Proceeds from the sale of poppies will be used by the in aiding veterans in various hospitals and a portion is also sent to the national orphanage operated by the VFW at Eaton Rapids, Mich.

The poppies are made by disabled veterans and purchased from them by service organizations for re-sale to the public.

Poppy Day, which is always observed near Memorial Day, goes back a long way, to World War I, to the return of those in the A.E.F. American Expeditionary Force is the translation for those of the present generation), many of whom were familiar with the little red flowers that dotted the French and Belgium countryside, and were immortalized by the late John McCrae in his poem, "In Flanders Fields."

Car Sluggish? Could Be It Needs Exercise

The best way to get top performance from your car is to drive it. This counsel comes from John H. Struben, director of the Chicago Motor Club-AAA's emergency road service department. Head for the open road oc-

asionally and exercise your car, Struben suggests.

"This does not mean driving at excessive speeds -- just reasonable highway speeds to give your engine a good workout," Struben said.

What's new, coffee cup? A kitchen counter that cooks. Electrically, of course.

On the level. A sleek stretch of tempered ceramic is the newest electric range. Only its temperature dials give it away.

It looks like a counter, but it cooks like a range. So where is the heat? Under the tempered ceramic surface. That's its marvelous advantage. Comes clean-up time, all it takes is once-over-lightly with a sponge.

First the oven that cleans itself. Now, a counter that cooks, and keeps cleaning simple. Where do these great ideas come from? Where else?

The bright new ideas are Electric.

L-W Names Rick Loucks As Athlete Of The Year

Rick Loucks, of New Lenox, star track performer and varsity letter winner in football and basketball as well, has been nominated as Lincoln-Way High School's candidate for Will County Amateur Athlete of the Year.

Rick, now 18, who carries 175 pounds on his 6-foot-one-inch frame, has not yet decided on the college he will attend. He has been approached by some and undoubtedly there will be others who will endeavor to get him enrolled.

He is a good student and an excellent athlete, a combination that most institutions of higher learning find most attractive.

In his freshman year in football he was the top ground gainer but in his second year he broke a leg in an early game. That kept him out of anymore football as a sophomore but he had recovered sufficiently to play in the last two basketball games that season in which he averaged 10 points per game.

He was playing football again in his junior year and won his varsity letter and in basketball that season he averaged 12.1 points per game, was the leading rebounder on the junior varsity and the sixth man on the varsity, winning his letter.

Rick had the best free throw record on the varsity his senior year and was 8th in the Joliet area freethrow percentages. He was awarded the sportsmanship trophy at the DeKalb tourney and

RICK LOUCKS

was honorary captain of the team.

His ambition is to qualify for the United States track team in the 1972 Olympics.

In his freshman year in track Rick was undefeated in the quarter mile in 14 dual meets. He set a new L-W frosh-soph record for the 440 -- 54.1, and was the SWS Conference champion at that distance. He also was on the L-W mile relay team that set a new record of 3:52.

In his sophomore year he went undefeated in the 440 in 11 dual meets but was unable to compete in more because of reinjury to the leg broken in football.

In his junior year he set a new Lincoln-Way record for the 440 -- 52.4 and was on the mile relay team which set a record of 3:32.9, and again was SWS champion quarter miler.

Now in his senior year he is captain of the track team.

At present he holds a record of 50.2, and so far is unbeaten in the 880. He set the 50.2 mark in the Will County Track meet recently and turned in a lap of 49.5 in the mile relay in the same meet which L-W took in 3:27. His time of 1:59.3 for the 880 has been the best in the area.

Track Coach Joe Rodriguez is predicting that Rick will run the 440 in 49 seconds flat to win the SWS Conference championship and that the mile relay team will do the distance in 3:25.0. He believes Rick will do the 880 in the district in 1:56.0 and will be among the first six in that event in the state meet.

In the Kingsmen mile relay which L-W won in 3:28.4, Rick clicked off half of it in 1:55.2. He was also in the Kingsmen middle distance relay in which L-W set a new record of 3:38.4.

Says Athletic Director Ronald Stopka:

"Rick Loucks possesses a special intangible ingredient that some call 'hustle', others call 'guts,' and still others call 'drive'. The Lincoln-Way coaching staff feels Rick has contributed to the team, athletes and student body a formula that includes all these ingredients, 'team spirit.'

"Rick's team spirit can best be described as a driving enthusiasm for athletics in every exercise, drill, etc., and with the courage to meet all the obstacles associated with athletics.

"Spirit to Rick doesn't mean yelling or talking it up. These are easy to do. Rick displays team spirit by his attitude, desire, cooperation, self-discipline, sacrifice, willingness to work and the will to win.

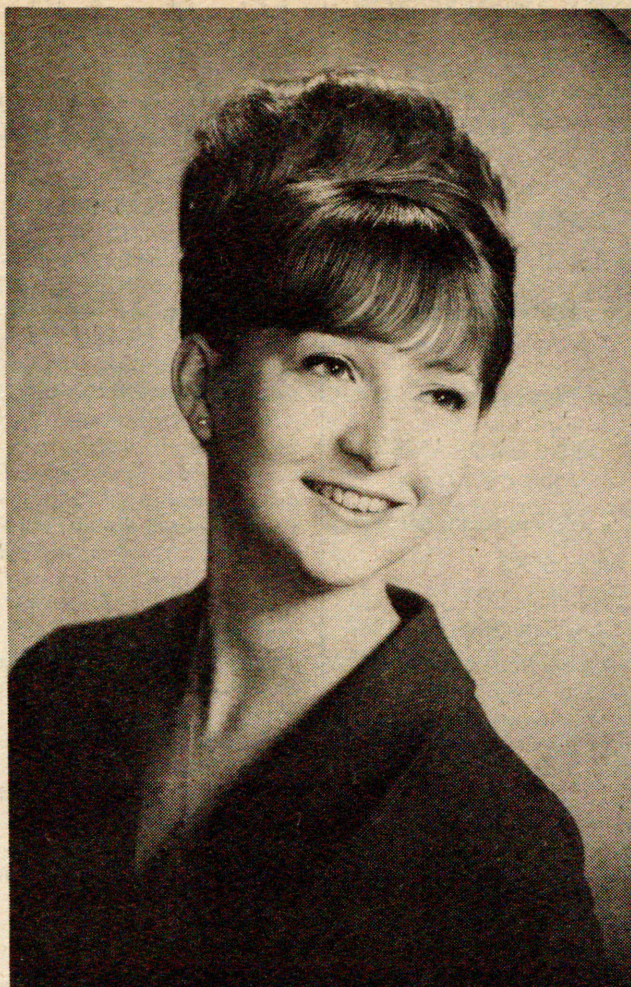

"He shows further proof of this spirit by never being late for practice, never missing a practice, taking calisthenics without trying to dog them, practicing all out for every second, trying and helping those athletes who need aid, rooting for each and every athlete in the contest, including that one who may be keeping him on the bench, never looking for excuses to get out of doing something, obeying all training rules and determined that no athlete, except a very superior one, shall beat him out.

"The coaching staff at Lincoln-Way feels no athlete can contribute more to his coach, team, student body, school or community than that which Rick has contributed."

Rick enjoys reading and one of his favorite subjects is English. He has received several letters of commendation from his teachers.

An active member of the Varsity club, Rick is on the House of Representatives and chairman of the student-run study halls program.

"He is a boy gifted with ability and is quite mature," Stopka concluded. He is immaculate in appearance, courteous, responsible, loyal, and interested in bettering himself. He is the type of boy we adults would like to have as a son.

Dear friends,

The continuing round of baptisms, religious classes, weddings, sick calls, personal counseling, funerals, place a heavy burden on our clergymen. We often wonder how they bear it so graciously.

Although they have great inner purpose to sustain them, let us remember that clergymen are also human - they appreciate an expression of gratitude even as you and I.

Of course, our operators are still on duty 24 hours a day to handle calls that can't be dialed direct, to provide numbers not in your local directory, and to help you in an emergency.

Soil Stewardship Week

Soil Stewardship Week, a nationwide observance which places emphasis on man's obligation to God as stewards of the soil, water and other related resources, will be celebrated locally May 11-18, according to William Stelter, chairman, Will-South Cook Soil and Water Conservation District.

This year's observance with the theme, "Confronting The Issues", stresses the responsibility which each citizen has in dealing forthrightly with current issues involving stewardship of renewable natural resources. Among the issues facing Americans are the management of the great wealth of natural resources in local

communities to provide the greatest contribution to the well-being of its people and to those in counties and in the states; the management of the great wealth of natural resources in the United States to provide the greatest contribution to its society and to the world.

The Will-South Cook Soil and Water Conservation District and some 3000 companion Districts throughout the nation along with their state and national associations are sponsoring the event for the 15th consecutive year.

The District with assistance of local banks distributed 21,500 bulletin inserts to 90 churches. Booklets

were given for the use of clergymen of all faiths to assist them in leading congregations they serve in an appropriate observance of Soil Stewardship Week.

The District will participate in observance of Soil Stewardship Week on Orion Samuelson's WGN-TV Show, 6:30 to 7:00 a.m. on Wednesday, May 14. Earl Keniston of Wilton Center will appear on the program with the Rev. E.W. Mueller, National Soil Stewardship Advisory Committee member.

Slides will be shown on the breakfast for ministers which was held on May 3 in the Farm Bureau Building in Joliet.

Plan For School Milk

Legislation to make the special milk program for school children a permanent program passed its first major test in Congress, May 6, when the House passed the Poage bill by a lopsided vote of 384 to 2.

This bill, by Cong. W. R. Poage of Texas, chairman of the House agriculture

committee, authorizes \$125 million a year to pay the difference between the cost of the milk and what the children pay for it.

Earlier this year Pure Milk Association testified in favor of the Poage bill at a hearing before the House Agriculture Committee. PMA pointed out that

thru this program millions of children of school age have developed the healthful habit of drinking milk instead of trying to satisfy their appetites with products of questionable nutritional value.

The Senate is expected to act soon and favorably on this legislation.

Lose Time But Keep Credits

For any junior college student there exists the uncertainty of transferring credits to his next college. Actually, a junior college student doesn't lose credit in transferring, although unless he plans ahead, he may lose time in completing his major.

In a recent interview Dr. Joseph C. Piland, dean of college parallel and general studies at Joliet Junior College, pointed out that a student's best guarantee against a "loss in time" is to decide where he will further his education, and then decide on a course of study. Even if a student is deciding between four schools, he should get the catalog from each and plan his courses in conjunction with the study plans offered at these schools.

Dr. Piland cited the Illinois State University general education curriculum as a transfer possibility. He explained that a student can examine this curriculum description in the Illinois State University catalog and then in the JJC catalog to find courses equivalent to ISU's. Students using this method will find that, in most cases, all courses will transfer to fulfill major requirements.

Another question puzzling students is whether the same number of credit hours earned at JJC will transfer to another institution. Dr. Piland pointed out that it is up to the institution whether or not the total hours for a particular course will transfer fully. As an example, a student taking a five hour geography course at JJC will find that it will transfer as four hours at

Northern Illinois University. However, the fifth hour is not lost, he emphasized. This fifth hour can still be applied as a one hour elective in geography.

Junior colleges will continue to grow in size, importance, and necessity, Dr. Piland said. He explained that as of 1970, the freshman and sophomore college enrollment in Illinois will be "frozen." This means that most

students will attend a junior college and transfer to a four-year school for their junior and senior years.

JJC is fully accredited by the North Central Association, which means that courses taken at JJC will be recognized throughout Illinois and in many of the other states. JJC was reviewed again this spring by the North Central Association, thus bringing its rating up to date.
